## Woodchurch Tithe Assessment 1843

The Tithe Assessment for Woodchurch was created in 1843 in response to the Tithe Commutation Act of 1836. The original (P400/27/2) is held at The Centre for Kentish Studies. In conjunction with the two Tithe Maps (Upper Part of Woodchurch Parish: P400/27/1/1 and Lower Part of Woodchurch Parish: P400/27/1/2), also held at CKS, it is possible to locate each piece of land and/or house in the parish. This transcription, which was completed by Josie Mackie of the Woodchurch Ancestry Group in 2009, contains details of owner's name, occupier's name, field name, and land use (e.g. arable, pasture, garden, hops, orchard etc) and Tithe Map reference number for each piece of land or house plot. The original also contains acreages for each piece of land; these have not been transcribed. Copies of the two maps can be purchased from the Kent Archive Service on CDROM.

Please note: It should not be assumed that just because a person was listed as the 'occupier' of a house, that they necessarily lived there, although this is usually the case. Some are listed as occupiers of several house plots: possibly because they provided housing for their workers or married children.
